

Dear FCC,

A letter from the President of K-LOVE radio has informed me of pending FCC actions which may effect my ability to listen to our local K-LOVE station. While I do not understand the legal specifics, I welcome the opportunity to voice my concern regarding any adverse effects your decision may have on established radio stations.

K-LOVE is listener supported. Any increase in operating costs due to the purchase of new transponding equipment would bring financial hardship to a small, supporter based station.

I ask that you keep in mind the effect a new prioritised LPFM service will have on current FM translators. Diversity needs protection from those simply able to purchase the most air time.

Thank you for your time.

Sincerely,

Judy Wade
